

\$999

Say you can't afford a new hearing aid? Well think again!

Central Carolina ENT is offering the Avio3 mini behind the ear, power behind the ear, mini receiver in the canal, or custom in the ear (any size) for only \$999.00 each!

The Aveo3 is made by Interton, a system company of Resound. These units contain the WARP processing that has made Resound's signal processing second to none.

Not only will you be getting a tremendous value, but you'll be receiving a superior hearing instrument with such features as:

1. Multiband, multigain for precision tuning of your aid.
2. Multilevel Noisetracker II, featuring spectral subtraction of noise from the speech signal.
3. The unit can be programmed with 1 to 4 programs to meet your hearing preferences.
4. Receiver in the canal technology to fit up to 80dB hearing losses.
5. Feedback cancellation software to give you the gain you need and control whistling sounds.
6. Datalogging for time-lapsed information on your acoustic environments.
7. Open fitting capabilities for a clear natural sound.

The Aveo3 comes with a 2 year warranty and a 2 year loss and damage coverage.

And of course, you'll be given a 45 day trial period to see if Aveo3 is right for you.

Don't delay! This offer will expire in the spring. Hear and enjoy a better quality of life!

Call our Apex office, 919-363-9311, or in Sanford, 919-774-6829 to setup an evaluation.
